Profile

Frontend developer specializing in **React, TypeScript, and Next.js** with experience building responsive, high-performance web applications. Skilled in creating **clean, modular UI components** and collaborating with cross-functional teams to deliver scalable solutions. Strong background in **UI/UX optimization**, with additional full-stack knowledge (Drizzle ORM, NeonDB, Node.js).

Professional Experience

RocketShyft, Software Developer

2024

- Built and maintained **responsive web applications** using React.js and TypeScript, optimizing performance and maintainability.
- Developed **modular, reusable UI components** that improved development speed and UI consistency.
- Collaborated with engineers, designers, and product managers to deliver features **on time and aligned with business goals**.
- Improved frontend performance, reducing load times and boosting user engagement across devices.

Freelance Web Developer

2023

- Designed and deployed web applications with **Bubble.io**  and React-based frameworks.
- Translated client requirements into **intuitive, user-friendly interfaces** with consistent branding.
- Ensured cross-device reliability through **rigorous testing and debugging**.

Digipay, Software Engineer Intern

2022

- Developed and enhanced UI components using **React.js, JavaScript, and Material UI**, improving responsiveness and load times.
- Participated in **code reviews, debugging, and feature enhancements** for production applications.
- Collaborated with senior developers to build new features with **component-based architecture**.
